# A Security Company

**Location:** London

**Products:** Leo

## Opportunity

A computer security company recently moved into a new office space in London, designed by workplace design firm Thirdway Interiors and furnished by dedicated furniture experts TRIBE.

The client were looking for a new office space that promoted collaboration and also provided a variety of different environments for people to work effectively in depending on their activity, mood and personal working preference. ThirdWay Interiors created several zones including conventional workstations, breakout spaces, chill out areas, booths and individual workrooms.

## Solution

Connection furniture was used in the lobby & breakout spaces. The contemporary Leo sofa & chair range were a natural choice for these areas to create a premium and stylish feel. The sprung tension seating gives an abundance of comfort whilst the removable feather cushioned arms continues the feeling of comfort with added luxury. Stylish detailing with delicate lazer cut metal legs make Leo an elegant and distinctive furniture piece.
